ROI WITH US

SOUVENIR TEE LOW RETURN ON EXPOSURE

VS

LIFESTYLE TEE HIGH RETURN ON EXPOSURE

Branded Label

Gildan, Next Level, Alternative, etc. are thrilled you are willing to pick up the tab for most of their marketing.

Heavy Hand Inks

Printing with plastisol is layering ink on top of fabric, which results in a thick plastic texture.

Generic Designs

Too often do we see promotional T-shirts that make you question why money was ever spent on it to begin with.

Rough Non-Fitting Blanks

The point of any wearable is to be worn. The coolest design in the world is pointless on a bad blank.

This cheap promo tee only gets
0-5 Wears

A \$5.00 TEE COSTS \$1.00 PER
FOR 5 LOUSY EXPOSURES

Custom Private Label

The smallest print has the biggest impact. Private labeling makes a stronger impact on your customer than a co-branded throw-away.

Soft Hand Inks

Water based discharge printing works by dyeing the ink into the fabric leaving a smooth soft hand smooth retail feel.

On Trend Designs

A well designed shirt will be worn more frequently in lifestyle locations, but your brand will also be better perceived overall.

Soft Made-to-fit Blanks

Most of us have a shirt that feels great, and looks even better. Why not provide that experience to your customer?

Your new favorite shirt receives
20+ Wears

A \$10.00 TEE COSTS JUST \$.50 PER
FOR 20 QUALITY EXPOSURES

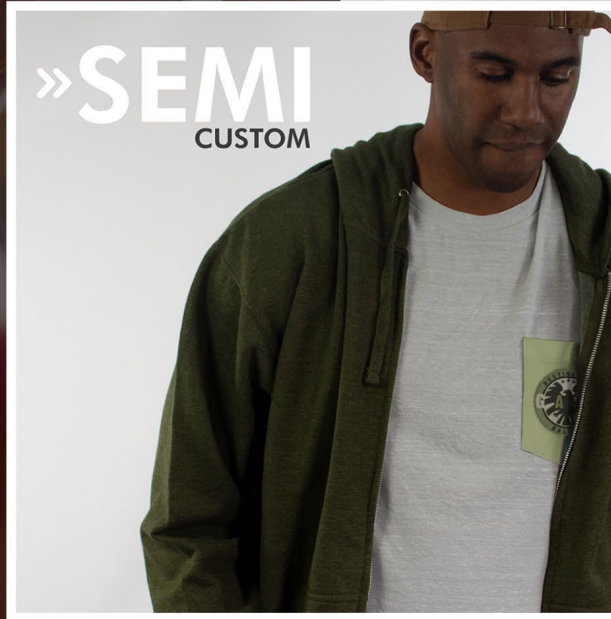

3 WAYS TO BUILD YOUR BRAND

1. STOCK

Tons of options in our stocked collection. Pick your blank, choose from 30+ ways to print and you're ready to go in 10-12 business days.

MIN 72-144

2. SEMI CUSTOM

Take a stock garment and apply either a wet or dry process add-on to create your own custom garment. Ready in 21-30 business days.

MIN 144+

3. FULL CUSTOM

We start at the beginning with original pattern making, followed by the fabric of choice, including color and finish. Final assembly is as desired (thread type & color) plus any labeling or other branding options along with your primary decoration. Ready in 45-60+ business days.

MIN 300-1200

1. STOCK

With thousands of options in our stock program available in nearly every color imaginable, finding a quick and quality solution is easier than ever.

Pick a garment, stylize your logo with one of our 30+ print techniques and you are well on your way to a super soft printed garment.

Speaking of soft, we specialize in soft hand printing. So much so, we've based our business around giving you the softest print possible no matter what.

Want it even softer? Finish it off with Butterwash.
Truly the softest tee you've ever worn.

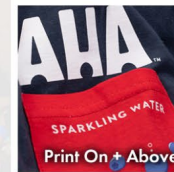

2. SEMI CUSTOM

Take a stock garment and apply either a wet or dry process add-on to create your own custom garment... in about half the time as full custom would be.

All-Over

Print On + Above

All-Over + Label

BUTTERWASH

This post print process is sure to make your garment and print the softest thing you've ever laid your hands on.

Makes ringspun feel like a tri-blend, makes tri-blend feel softer than you've ever imagined.

Butter makes it better.

BELLY BANDS

Full color, full bleed printing allows for product coupons, redemption incentives, calls to action, etc.

Great for your client's trade show giveaways – the banded tees stack and display well on tabletops. No more frustrating polybags.

The end user has an immediate interaction with you before even trying on the t-shirt.

GETTING STARTED

- First you're assigned an internal expert who will handle all projects, art requests, samples requests and quotes.
- Have your project details handy – estimated order quantity, art/logo/brand guidelines, order timeframe, etc.
- If you have finished art on hand we can jump right into quoting and skip the mockups.
- If finished art is required we can take your client's assets, thoughts and project details and turn them into a professionally merchandised collection for presentation to the client.
