SPREADING YOUR WORD OR IMAGERY THROUGH CLOTHING

QUALITY OF EXPOSURE

WON'T WORK - IF THAT EXPOSURE IS TO THE INSIDE OF A BUCKET

The alternative is the super soft and well-designed lifestyle tee, with soft hand inks and a custom tag-less neck label. This garment makes the closet. Getting worn in public, hopefully often, for a night out on the town, That's prime time Return on Exposure!

Branded Label

Gildan, Next Level, Alternative, etc. are thrilled you are willing to pick up the tab for most of their marketing.

Custom Private Label

The smallest print has the biggest impact. Private labeling makes a stronger impact on your customer than a co-branded throw-away.

Heavy Hand Inks

Printing with plastisol is layering ink on top of fabric, which results in a thick plastic texture.

Soft Hand Inks

Water based discharge printing works by dyeing the ink into the fabric leaving a smooth soft hand smooth retail feel.

Generic Designs

Too often do we see promotional T-shirts that make you question why money was ever spent on it to begin with.

On Trend Designs

A well designed shirt will be worn more frequently in lifestyle locations, but your brand will also be better perceived overall.

Rough Non-Fitting Blanks

The point of any wearable is to be worn. The coolest design in the world is pointless on a bad blank.

Soft Made-to-fit Blanks

Most of us have a shirt that feels great, and looks even better. Why not provide that experience to your customer?

WE ARE A DEDICATED SUPPLY CHAIN ONLY AVAILABLE

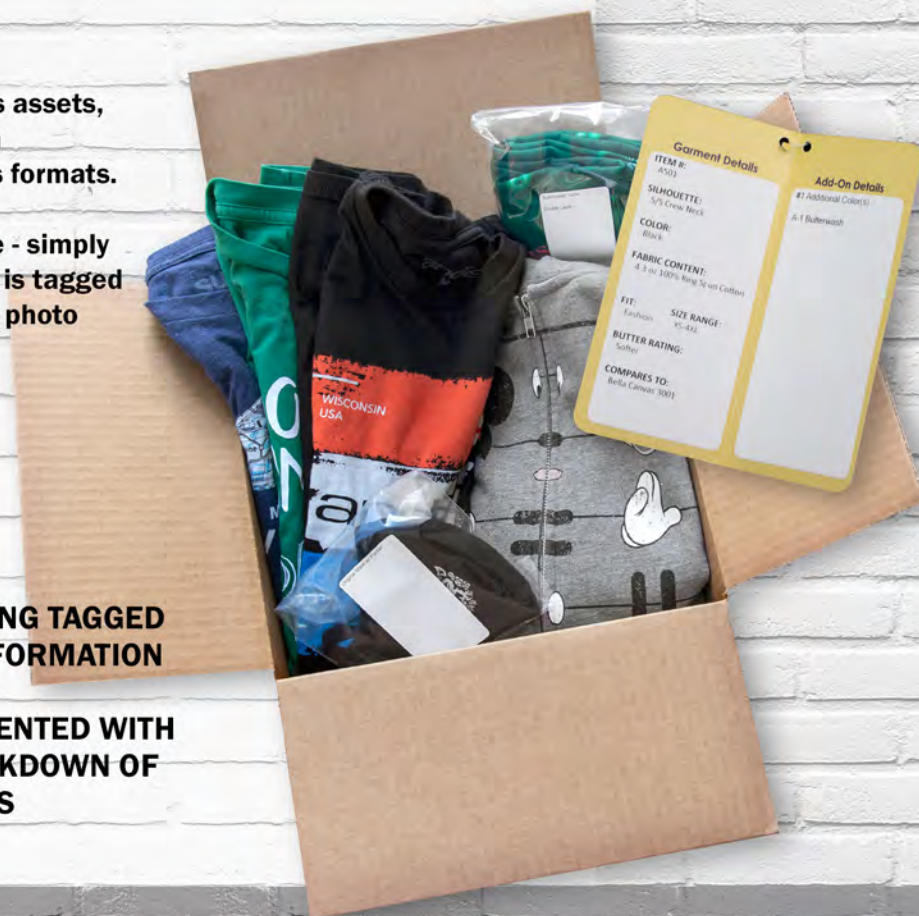

GETTING STARTED

THROUGH AUTHORIZED ASI AND PPAI SALES AGENTS

- An Authorized Distributor is given an internal expert to guide them through the various textile options available through the company for each opportunity.
- Every opportunity should be assessed by the time line and budget required to fulfill. This will establish your garment and decoration options.
- If finished art is ready and approved we are happy to turn it into a professional layout for presentation to the end-user.
- If custom art is required we can take your client's assets, thoughts and project details and turn them into a professionally merchandised collection in various formats.
- Case study samples are always available and free - simply provide your shipper # and address. Each sample is tagged with all relevant info. We document each kit with photo and details for accurate follow-up.
