

## ENVIRONMENTAL IMPACT EFFORTS

The Internet can be a fun place where you can appear to be many things with the stroke of a pen.

Everyone has a story about what they do for sustainability and being eco-friendly in their operations.

Best thing about facts? They don't require any hype.

We own our facilities and therefore are able to create the most eco-friendly environment currently available in our industry.

We believe we have done that at our Texas headquarters.

Here's the kicker, you can actually come by for a visit and see for yourself.

It's all real.

So we start our story being ISO 9001 Certified.

What that means to you is we have eliminated any question of our intentions as a company. Whatever we claim we do in our operations, start to finish, is audited by a 3rd party agency to be true and factual - or they take our certificate away. Many clients of companies in our ownership group require that kind of precision. We are a benefactor of that corporate position. All our related companies are ISO Certified beginning in 2001 and have been Certified for 21 years running.

That being established, since TTY's inception in 2011 we have...

- ELIMINATED 80% OF HAZARDOUS CHEMICALS
- 28% OF ELECTRICITY USAGE
- HIGH EFFICIENCY DRYERS CUT GAS USE X 25%
- HVAC REDUCED BY 28%
- LED FIXTURES THROUGHOUT
- DMI PRODUCTION REPORTING
- DIGITAL NON - CONSTANT FLASHES
- ON-SITE TRASH RECLAIM - GARBAGE & FABRIC
- 85% OF INKS USED ARE WATER BASED - 100% ENCOURAGED

We stake our ISO Certification on it every day.

## SCREEN MAKING

## CTS IMAGING

CTS USES WATER SOLUBLE WAX IMAGING TO ELIMINATE FILM AND REDUCE LABOR, OVERHEAD AND UTILITY COSTS. CTS OFFERS AN INSTANT QUALITY UPGRADE OVER ANY TYPE OF INKJET OR TONER BASED WORKFLOW.

## ECO - EXPOSING

### SCREEN EXPOSING

CTS IMAGING REDUCES EXPOSURE  
TIMES BY 40% WHILE DELIVERING HIGHER  
OPTICAL DENSITY FOR SUPERIOR EDGE  
DEFINITION AND HALFTONE DOT CONTROL.

## ECO - SCREEN RINSING

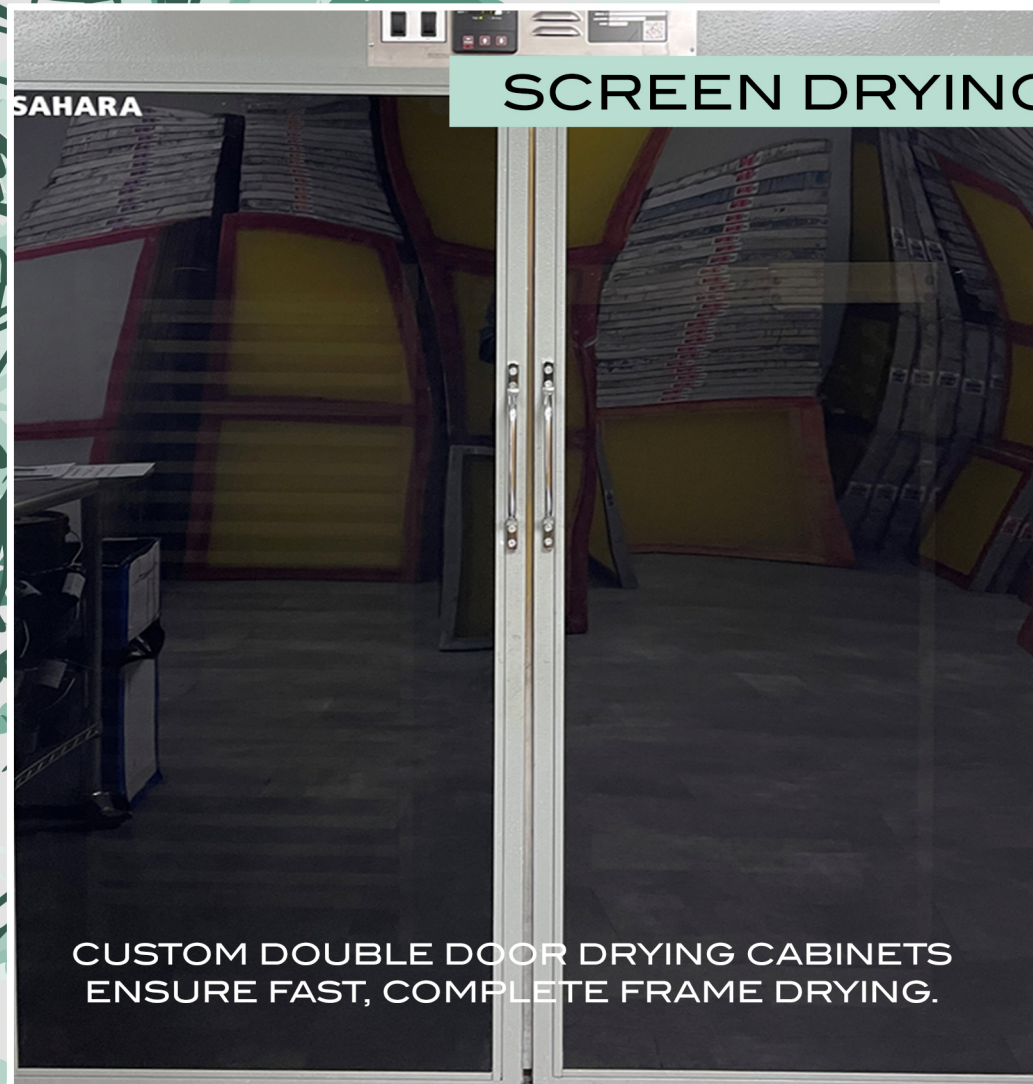

### AUTO RINSE

ECO-RINSE REDUCES LABOR BY AUTOMATING THE PROCESS AND HAS HELPED REDUCE OUR WATER CONSUMPTION FROM 2500 GALLONS A DAY TO 200.

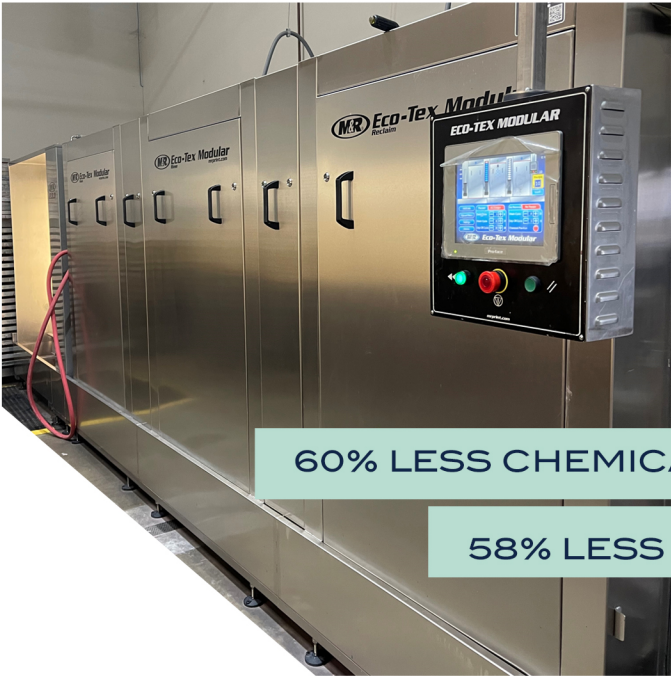

## SAHARA - SCREEN DRY

ECO - RECLAIM

ECO TEX SCREEN CLEANING

60% LESS CHEMICAL USE

58% LESS WATER

THE ECO - TEX SYSTEM RECIRCULATES INDEPENDENT CHAMBERS OF SCREEN CLEANING CHEMICALS TO REDUCE ENVIRONMENTAL IMPACT AND HAS HELPED REDUCE WATER CONSUMPTION BY 92%.
